Type	Scientific Name	Common Name	Ht	W	Pot Size 1	Price 1	Description
grasses	Andropogon 'Silver Sunrise'	Silver Sunrise bluestem	5'	2'	qts	\$5.25	Silvery basal foliage. Yellow-banded flowering stalks. Seedheads are hairy and golden-yellow in color. Purple/burgundy fall foliage. Full sun, well-drained soil.
grasses	Andropogon gerardii 'Kaw'	Kaw big bluestem	5'	2'	18s	\$4.50	Impressive native of tall grass prairie w/ seedheads resembling turkey's foot. Dry to medium, well-drained soils in full sun. Tolerant of a wide range of soils and growing conditions.
grasses	Andropogon gerardii 'Pawnee'	Pawnee big bluestem	5-6'	2'	18s	\$4.50	Impressive native of the tall grass prairie. Rich, green leaves to 2' by late June. Seedheads resemble turkey's foot. Reliable copper, burnt orange and maroon fall color. Full sun, wide condition range, drought-tolerant.
grasses	Bouteloua curtipendula	sideoats grama	2'	2'	18s	\$4.50	Graceful, fine foliage turns golden yellow in fall. A slow, sod-forming warm season native. Delicate, pendant seedheads. Full sun, wide condition range.
grasses	Bouteloua gracilis	blue grama	2'	2'	18s	\$4.50	Tufts of thin, wiry leaves with eyelash-like seedheads. Nice specimen plant or mass for prairie style lawn. Full sun, drought tolerant, native.
grasses	Calamagrostis brachytricha	Korean feather reedgrass	3.5'	2.5'	18s	\$4.50	Native to woodland edge in Asia. Glossy foliage with feathery pink flowerheads in September. Prefers consistent moisture. Easy to grow in most soils. Excellent in containers.
grasses	Carex comosa	longhair sedge	1-2'		18s	\$4.50	Grass-like plant with coarse-textured, bright green foliage. It prefers moist conditions making it perfect for a rain garden or water garden. It's also deer-resistant.
grasses	Carex eburnea	bristleleaf sedge	6"		18s	\$4.50	Native to limestone outcroppings. Drought-tolerant, 8" wide clumps w/ needle-like foliage resembling small green porcupines.
grasses	Carex hystericina	porcupine sedge			18s	\$4.50	Prefers wet habitat such as wetlands or riverbanks. In right conditions can spread aggressively. Interesting, prickly seedheads.
grasses	Carex morrowii 'Ice Dance'	Ice Dance sedge	1'	1-2'	18s	\$4.50	Grass-like leaves are dark green with white edges, with the color often persisting through winter. Prefers moist soils with part to full shade. Slowly spreads and looks nice in a container.
grasses	Carex muskingumensis	palm sedge	2.5'	2-3'	18s	\$4.50	Grass-like leaves radiate out from the stem. Light green foliage turns yellow with frost. Full to part sun, moist soil.
grasses	Carex plantaginea	plaintain-leaved sedge	1'	1'	18S	\$4.50	Clump-forming sedge with broad, 1" shiny evergreen leaves. Best growth in moist soils and part shade, but tolerates dry soils.
grasses	Carex sprengeii	long-beaked sedge	2-3'	18"	18s	\$4.50	An attractive fountain-like mound of bright green foliage with loose, pendant flower spikes. Grows best in part to full shade and moist soil, but tolerates dry shade. Remains green well into winter. Excellent in containers.
grasses	Elymus canadensis	Canada wildrye	3'	3-4'	18s	\$4.50	Attractive nodding seedheads remain attractive well into winter. Blue-green foliage turns tan in fall. A fast growing, somewhat short-lived cool season prairie grass. Full sun, adaptable, naturalizing.
grasses	Eragrostis trichodes	sand lovegrass	3'	2-3'	18s	\$4.50	Purplish, airy flower clusters in mid-summer among shiny, dark green foliage. Becomes bronze in fall and looks nice in winter. Full sun, drought tolerant, may naturalize.
grasses	Koeleria macrantha	prairie Junegrass	1'	1.5'	32s	\$3.00	Tolerates full sun, part sun, sand, clay, seasonal flooding and deer. A drought-tolerant, cool season grass that goes dormant in summer.
grasses	Miscanthus 'Autumn Red'	Autumn Red miscanthus	3-4'	2'	18s	\$4.50	Reddish tinged flowers become white seed plumes and last well into winter. Foliage turns dazzling shades of orange and red in fall that also persist. Full sun to part shade, site adaptable.
grasses	Molinia 'Bergfreund'	Bergfreund purple moor grass	2.5'		1/2 gal	\$6.00	Dark green leaves turn yellow in autumn. Brown, spiky seedheads on arching stems. Full to part sun in moist soil.
grasses	Panicum amarum 'Dewey Blue'	Dewey Blue switchgrass	3'	4'	18s	\$4.50	An excellent selection of a native grass with silvery blue foliage. Airy flowering plumes in late summer give way to beige seedheads that last through winter. Plant in full sun with well-drained soil.
grasses	Panicum 'Prairie Wind'	Prairie Wind panicum	7'		18s	\$4.50	An extra tall version of switchgrass. Leaves and seedheads sway in the wind. Full to part sun in average soil.
grasses	Panicum virgatum 'North Wind'	northwind switchgrass	4-5'	2-3'	1 gal.	\$9.00	"The best landscape Panicum" Bluebird Nursery. Outstanding upright selection w/ wide green/blue glades that turn yellow in fall. Vigorous & rust resistant.
grasses	Panicum virgatum	Shenandoah	4'	4'	18s	\$4.50	Foliage emerges blue-green in spring and quickly becomes red. Reddish pink flowering plumes become beige

Copy of Greenhouse plant descriptions

Type	Scientific Name	Common Name	Ht	W	Pot Size 1	Price 1	Description
	'Shenandoah'	switchgrass					seedheads. Grows best in full sun with moist soils.
grasses	Schizachyrium scoparium	little bluestem	2'		18s	\$4.50	Colorful, fine-leaved, warm season bunch grass. Russet red fall color and attractive fuzzy seedheads through December. Tolerates hot, sunny areas where other plants have failed.
grasses	Schizachyrium scoparium 'Blaze'	little bluestem	3'	18-24"	1 gal.	\$9	Fine leaved, warm season bunch grass is reddish fall/winter.
grasses	Sorghastrum nutans 'Indian Steel'	Indian Steel Indiangrass	5-6'	2-3'	18s	\$4.50	Blue-green foliage turns yellow in fall. Golden flower plumes become bronze seedheads in fall. Grows upright in full sun and dry soil.
grasses	Sorghastrum nutans 'Tomahawk'	Tomahawk Indiangrass	4-5'		18s	\$4.50	Wider light green leaf turns reddish-yellow in fall and persists through winter. Golden seedheads are another attractive characteristic of this warm-season grass. Full sun, drought-tolerant.
grasses	Sporobolus heterolepis	prairie dropseed	2'	1'	18s	\$4.50	This native grass forms a mound of foliage with dainty seedheads in late summer to early fall. Beautiful bronze fall color. Full sun, drought tolerant.
grasses	Sporobolus wrightii	big dropseed	7'	4'	18s	\$4.50	Stunning branched feathery seedheads and arching leaves. Vigorous grower, very drought-resistant once established. Full sun.
perennials	Achillea millefolium 'Paprika'	yarrow	2'	18-24"	1 gal.	\$9	Red flower clusters w/ gold centers fade to salmon color. Sun
perennials	Allium senescens 'Mongolian Gem'	Mongolian Gem allium	1.5'	1.5'	32s	\$3.00	Foliage is handsome blue-green and strap-like. Pinkish lavender balloon-like flowers give a carnival-like feeling. Bronzy yellow fall foliage.
perennials	Amorpha canescens	leadplant	4'	3'	1/2 gal	\$6.00	Silvery green color immediately catches the eye, which is caused by very pubescent leaves. Dark purple spike-like racemes rise above the foliage in June and July. Very drought tolerant.
perennials	Amorpha nana	dwarf indigo	3'	3'	lg band	\$6.00	Fragrant magenta flowers with orange anthers. Smallest and least common amorpha. Drought-tolerant, full sun.
perennials	Amsonia tabernaemontana		3'	2-3'	3"	\$3	Starry pale blue flowers in May/June. Willow-like leaves, very adaptable. Sun to shade.
perennials	Anthericum ramosum	St. Bernard's lily	2'	1'	18s	\$4.50	Narrow grass-like leaves to 12" long. Leafless stems rise from the foliage to around 30" high, giving rise to numerous small white, star-shaped flowers. Full sun. Source: Hungary
perennials	Asclepias incarnata		2-4'	2'	3"	\$3	Native w/ light pink flowers. Full sun, attracts butterflies & hummingbirds.
perennials	Asclepias tuberosa	butterfly milkweed	2-3'	1.5'	1 gal.	\$9	Very drought-tolerant herbaceous perennial with extensive root system. Showy dark orange-red flower clusters in summer followed by attractive seed pods in fall. Don't overwater. Plant in full sun in dry soil or raised bed.
perennials	Aster fendleri 'My Antonia'	My Antonia aster	1'	1'	1 gal.	\$9	Drought-resistant native perennial with a compact mounding habit. Produces delicate, pure white flowers, blooming profusely in late summer. Foliage is dark green and fine-leaved, plant in full sun in well-drained soil.
perennials	Aster oblongifolius 'Dream of Beauty'	Dream of Beauty aster	1'	2'	1 gal.	\$9	Native aster has masses of sugar-pink flowers with burnt orange centers in fall; gray-green dense foliage. Grows in a wide range of soil types, including clay.
perennials	Aster oblongifolius 'October Skies'	October Skies aster	18-24"	18-24"	1 gal.	\$9	Tolerates poor soils and drought. More compact and less likely to spread than the species. Blue flowers in fall.
perennials	Aster ptarmicoides	upland white aster	1'	1'	32s	\$3.00	Dainty white flowers adorn this willowly plant in late summer. Silvery seedheads contrast against shiny, dark green foliage. Grows in full sun with dry soil.
perennials	Baptisia minor	dwarf blue indigo	2'	2'	1 gal.	\$9	Beautiful indigo blue flowers in spring on dwarf form of familiar blue indigo. Slow to establish it will eventually form a nice mound of blue-green foliage and forms nice seed pods for dried arrangements. Prefers full, hot sun.
perennials	Bergenia cordifolia	heartleaf bergenia			18s	\$4.50	Clump-forming perennial retains large, leathery, glossy green leaves through winter. Pink flowers in April. For shade or part shade.
perennials	Centranthus ruber 'Albus'	white jupiter's beard	2-3'	20"	1 gal.	\$9	White flowers, glossy foliage, full sun.
perennials	Centranthus ruber 'Pretty Betsy'	jupiter's beard	2-3'	2-"	1 gal.	\$9	Red flowers, glossy foliage for full sun.

Type	Scientific Name	Common Name	Ht	W	Pot Size 1	Price 1	Description
perennials	Ceratostigma plumbaginoides	plumbago			1 gal	\$9.00	Late, long-flowering plant is excellent groundcover for sun or part shade. Eye-catching blue flower with dark center. Foliage emerges late, good for interplanting with bulbs; planting under shrubs or as a edger.
perennials	Echinacea pallida	pale purple coneflower	4'	2'	1 gal.	\$9	Sweet-scented coneflower with spidery petals, blooms June-July. Full to part sun. Good cutting flower.
perennials	Echinacea paradoxa	yellow coneflower	2-4'	2'	sm band	\$4.50	Bright yellow drooping petals with dark cone. Prefers full sun.
perennials	Erodium chrysanthum	yellow storksbill	1'	1'	18s	\$4.50	Gray-green woody perennial groundcover. Yellow flowers in spring. Full sun, well-drained soil. Good evergreen plant for rock gardens.
perennials	Eryngium yuccifolium	rattlesnake master	4'	2'	1 gal.	\$9	Yucca-like foliage bears clusters of small white flowers July-Sept. Native.
perennials	Eupatorium altissimum 'Prairie Jewel'	Prairie Jewel eupatorium	3'	2-3'	18s	\$4.50	Native prairie plant with mottled foliage and clusters of small white flowers in fall. Well-drained, moderately dry soils and full sun. Zone 4
perennials	Filipendula rubra 'Venusta'	meadowsweet	4-5'	3'	1/2 gal	\$6	Very large pink flowers thru summer, vigorous. Sun to part shade.
perennials	Filipendula ulmaria	queen of the meadow	3-4'	3-4'	18s	\$4.50	Creamy-white, asilbe-like, fragrant flowers in crowded clusters summer till fall. Full to part sun.
perennials	Gaillardia 'Burgunder'	blanketflower	1'	2'	1 gal.	\$9	Deep red flowers thru summer. Hardy & drought-tolerant.
perennials	Geranium sanguineum	bloody cranesbill	1'	1'	1 gal.	\$9	Abundant magenta flowers late spring/early summer; may rebloom. Delicate foliage turns beautiful red in fall. Sun to part shade.
perennials	Geum triflorum	prairie smoke	1'	1'	1 gal.	\$9	Nodding pink flowers and feathery seedheads on 12-15" native. Full sun.
perennials	Heuchera sanguinea 'Snow Angel'	Snow Angel coral bells	1'	1'	1 gal	\$9	Variegated, light-green, heart-shaped leaves w/ creamy, mottled appearance and tiny, bell-shaped, pink flowers. Prefers moist, humusy soil and shouldn't be allowed to dry out. Deadhead for rebloom.
perennials	Hibiscus 'Pink Clouds'	Pink Clouds hibiscus	4-5'	3'	lg tube	\$6.00	Large, pink flowers with long bloom and leaves similar to Norway maple. Best in rich soil & good air circulation; tolerates light shade, but flowers more in full sun. Periodic deep watering helpful.
perennials	Iris prismatica	slender blue flag	1-3'		18s	\$4.50	Similar to blueflag but smaller. Very slender leaves are almost grasslike. Blooms May to July
perennials	Iris sanguinea	blood iris	1-2.5'		18s	\$4.50	This iris is related to the Siberian iris. Intense blue flowers larger than Siberian appear just above the leaves in late April. Foliage is bright green and reed-like. It grows in full to part sun with average, well-drained soil.
perennials	Kniphofia uvaria 'Flamenco'	red hot poker	30"	2'	1 gal.	\$9	Early flowering spikes of white to yellow to red flowers. Great cut flower for full sun.
perennials	Lespedeza capitata	roundhead bushclover	2-4'		1/2 gal	\$6.00	Creamy white flowers July-September on 2-4' plant with silvery foliage. Seedheads attractive through winter.
perennials	Liatris microcephala 'White Sprite'	White Sprite liatris	18"	15"	sm band	\$4.50	Small, upright, clump-forming perennial, white flower spikes, apricot fall color. Tolerant of full sun, heat, humidity, poor soils.
perennials	Liatris spicata	gayfeather	3'	3'	1 gal.	\$9	Early blooming native.
perennials	Lobelia siphilitica 'Blue Select'	Blue Select lobelia	3'	2'	18s	\$4.50	A Nebraska woodland native. Dark blue tubular flowers in late summer. Light green, lance-shaped foliage. Part to full sun.
perennials	Oenothera macrocarpa 'Comanche Campfire'	Comanche Campfire primrose	1'	1'	1 gal.	\$9	Large shiny silver leaves are complemented by glowing ruby stems throughout the season, topped with huge, delicious bright yellow flowers from June through October. Hardy to Zone 4.
perennials	Opuntia fragilis	spineless brittle prickly pear	4"	20"	32s	\$3.00	Yellow to chartreuse flowers with red filaments and golden anthers. Small, green fleshy fruits ripen to red. This selection has unique, spineless pads that are evergreen and winter hardy.
perennials	Opuntia fragilis	brittle prickly pear	4"	20"	18s	\$4.50	Yellow to chartreuse flowers with red filaments and golden anthers. Small, green fleshy fruits ripen to red. Winter hardy. From plains plantsman Claude Barr's ranch.
perennials	Opuntia macrorhiza	twistspine prickly pear	5-1'	5-1'	18s	\$4.50	Yellow flowers with a red eye bloom in early summer. Edible, pulpy red fruits follow. Winter hardy. From plains plantsman Claude Barr's ranch.
perennials	Opuntia polyacantha	plains prickly pear	8"		18s	\$4.50	Large, bright magenta flowers with yellow centers are followed by reddish purple fruits. Blue-green pads are covered with spines. Winter hardy.
perennials	Opuntia sp.	prickly pear			18s	\$4.50	Fuchsia flowers. Winter hardy.

Copy of Greenhouse plant descriptions

Type	Scientific Name	Common Name	Ht	W	Pot Size 1	Price 1	Description
perennials	Opuntia sp.	prickly pear			18s	\$4.50	Hot pink flowers. Winter hardy. From plains plantsman Claude Barr's ranch.
perennials	Opuntia sp.	prickly pear			18s	\$4.50	Yellow flowers with red centers. Winter hardy.
perennials	Origanum 'Amethyst Falls'	Amethyst Falls oregano	1'	2'	18s	\$4.50	Exceptionally long-blooming, abundantly-flowering selection with amethyst flowers. Hops-like cones and glaucous leaves. Drought-resistant and fragrant.
perennials	Pardancanda Dazzler Series	Dazzler candyilly	1'	.6"	qts	\$5.25	Colorful yellow to orange, red to pink and lavender to purple blooms, some with spots or stripes, mid to late summer. Handsome foliage.
perennials	Penstemon hirsutus	hairy penstemon	2'	2'	18s	\$4.50	Fuzzy-all-over plant with violet to purple nodding tubular flowers that attract butterflies and hummingbirds from June-July. Full to part sun on well-drained or dry soil. Deer resistant.
perennials	Penstemon x mexicale 'Red Rocks'	penstemon	15"	1'	1 gal.	\$9	Bright rose flowers all summer; very adaptable.
perennials	Polemonium reptans	creeping Jacob's ladder	1'	1'	18s	\$4.50	Light blue, bell-shaped flowers in loose, clusters appear mid to late spring. Weak-stemmed. Prefers moist, humusy, well-drained soil and part shade.
perennials	Pulsatilla vulgaris 'Alba'	white pasque flower	6-8"	1'	18s	\$4.50	Delicate white, cup-shaped flowers in early spring. Silky seedheads. Drought-tolerant.
perennials	Rudbeckia speciosa "Viette's Little Suzy"	showy black-eyed susan	2'		1 gal.	\$9	Similar to 'Goldsturm' but may tolerate drought better and is reportedly taller, longer blooming, more persistent and with longer lasting flowers. From Prairie Moon Nursery. Grows to 3'. Hardy to zone 3.
perennials	Salvia azurea ssp. Pitcherii 'Nekan'	pitcher sage	4-5'	2-3'	1 gal.	\$9	Beautiful blue flowers in late summer. Cut back for more compact plants. Full sun.
perennials	Salvia microphylla 'Hot Lips'	Hot Lips salvia	30"	6'	18s	\$4.50	This tender perennial (*Zn 7) is a fast grower with red and white bicolor blossoms. Bring inside overwinter to perpetuate.
perennials	Scabiosa superba 'Mongolian Mist'	Mongolian Mist scabiosa	1'	1'	18s	\$4.50	Large, dazzling, purple-blue pincushions arise from substantial 18" stems above elegant deep green 12" mounds of foliage. Collected in Inner Mongolia.
perennials	Sedum tatarowinii 'Mongolian Stardust'	Mongolian Stardust sedum	5-8"	1'	18s	\$4.50	Bluish-green coarsely-toothed leaves turn pink in summer. Dainty, pink/white flowers July thru August. Good drainage, dry soil and full sun.
perennials	Solidago 'Wichita Mountains'	goldenrod	2-2.5'	1.5'	18s	\$4.50	Oustanding long-standing attractive specimen with tall rods of bright gold in late summer.
perennials	Solidago flexicaulis	zigzag goldenrod	1-3'	1-3'	32s	\$3.00	Distinctive crooked stems bend at 45° angles. Starry, medium-yellow flowers. Deadhead to limit self-seeding.
perennials	Solidago rugosa 'Fireworks'	Fireworks goldenrod	2-4'	2-3'	1 gal.	\$9	Delicate, lacy spikes from mid-Sept to late Oct.
perennials	Solidago sciaphila	cliff goldenrod	3.5'		18s	\$4.50	Native to rocky outcroppings in Great Lakes. Erect, mostly unbranched, blooming August and September.
perennials	Solidaster luteus	solidaster	1.5-2'	1.5'	18s	\$4.50	Mix of goldenrod/white aster. Yellow clusters of daisy-like flowers in late summer attract butterflies. Deer-resistant; needs good air circulation to avoid diseases.
perennials	Veronicastrum virginicum	Culver's root	4-5'		18s	\$4.50	Pink-white tubular flowers in July-August.
perennials	Yucca glauca	soapweed	2'	2'	sm band	\$4.50	Flowering spikes rise up to 4' in early summer with white, bell-like flowers. Grows best in full sun and dry soil.
perennials	Zizia aptera	heartleaf alexanders	3'		18s	\$4.50	Umbels of tiny yellow flowers late spring to early summer on 3' stems. Best massed.
shrubs	Amelanchier canadensis	shadblow serviceberry	25-30'	15-20'	3 gal	\$35.00	White flowers in drooping clusters before leaves emerge in early spring. Edible blueberry-like fruits in early summer. Dark green leaves turn orange-red in autumn.
shrubs	Calycanthus floridus	Carolina allspice	5-8'	5-8'	1/2 gal	\$12.00	Nice shrub with spidery, fragrant red flowers. Yellow fall foliage. Prefers moist soil in part to full shade. Needs protection in Nebraska.
shrubs	Caragana microphylla 'Mongolian Silver Spires'	Mongolian Silver Spires caragana	8-9'	4-5'	1/2 gal	\$12.00	Silver, ferny leaves and a narrow, upright habit with chartreuse stems. Bright yellow, 3/4" flowers in spring, followed by showy red seed pods. Full sun, drought-tolerant and soil adaptable.
shrubs	Ceanothus americanus	New Jersey tea	3'	3'	lg band	\$10.00	Glossy leaves and clusters of white flowers in late spring. Takes a few years to reach maturity. This native prefers full sun and is site adaptable and drought-tolerant.

Copy of Greenhouse plant descriptions

Type	Scientific Name	Common Name	Ht	W	Pot Size 1	Price 1	Description
shrubs	Cephalanthus occidentalis	buttonbush	10'	10'	md band	\$8.00	White, pincushion-like flower clusters appear in early summer. The honey-scented blooms attract butterflies and bees. Grows in full to part sun and prefers moist soils--even standing water.
shrubs	Deutzia xlemoinei	Lemoine deutzia	5-7'		1/2 gal	\$12.00	Covered with pure white flowers in May. Grows in full to part sun, is soil-adaptable and can be pruned back like a spirea.
shrubs	Juniperus x'Bison'	Prairie Spirit juniper	1-2'		1/2 gal	\$12.00	Naturally occurring Nebraska hybrid. Needles emerge silvery-blue and become bright green. Creeps. Full to part sun in well-drained soil.
shrubs	Ligustrum amurense	upright privet	10'	10'	lg band	\$10.00	Shiny, dark green leaves and dense, upright habit makes for a good border. 1-2" panicles of white flowers in spring. Full to part sun, site adaptable.
shrubs	Ligustrum obtusifolium 'Fall Purple'	Fall Purple privet	15'	10'	1 gal	\$15.00	Dark green foliage turns an excellent purple in fall and is semi-evergreen. White flowers in summer months. Tough, drought-tolerant plant for full to part sun.
shrubs	Mahonia repens	creeping mahonia	1'	1.5'	1 gal	\$15	Bluish-green, holly-like foliage is evergreen, turning purple in the winter. Yellow clusters of flowers give way to blue fruits. Full to part sun in average, well-drained soil.
shrubs	Philadelphus microphyllus	littleleaf mock orange	2-3'	2-3'	1 gal	\$15.00	Easy-to-grow, low maintenance shrub is drought-tolerant and adaptable to varying conditions. Fragrant flowers in early spring.
shrubs	Prunus besseyi 'Pawnee Buttes'	western sandcherry	4-5'	5'	2 gal	\$25.00	A suckering shrub with gray-green foliage that turns soft red in fall. Masses of tiny white flowers in early spring are followed by edible black cherries. Prefers hot, dry conditions in full sun.
shrubs	Rhodotypos scandens	black jetbead	5'	7'	lg band	\$10.00	Bright white flowers in late spring are followed by black, bead-like fruits that persist through winter. Foliage is feathery. Full sun to part shade, site adaptable.
shrubs	Rhus aromatica 'Gro-Low'	Gro-Low sumac	1.5'	6'	1 gal	\$15.00	Dense, low-growing, rambling shrub which spreads by root suckers; 1-2' tall but spreads to 8' wide. Trifoliolate, medium green leaves turn attractive shades of orange and red in autumn. Leaves and twigs aromatic when bruised.
shrubs	Ribes aureum	golden currant	4-6'	4-6'	1 gal	\$15.00	Hummingbirds like flowers and currants have excellent flavor. Tolerates standing water or drought.
shrubs	Salix humilis	prairie willow	4'	6'	1/2 gal	\$12.00	Tolerates dry areas better than most willows. Dense thickets provide good wildlife cover.
shrubs	Symphoricarpos orbiculatus	coralberry	2-5'	2-5'	1/2 gal	\$12.00	White flowers produce clusters of round, coral-red berries that persist through most of winter. Tends to form clumps.
shrubs	Symphoricarpos orbiculatus 'Chenault'	coralberry	3-6'	3-6'	1/2 gal	\$12.00	Pink flowers produce clusters of pinkish berries that persist through most of winter. Tends to form clumps.
shrubs	Symphoricarpos orbiculatus 'Hancock'	coralberry	2'	1'	1/2 gal	\$12.00	Pinkish flowers and coral-red berries that persist through most of winter. Tends to form clumps.
shrubs	Viburnum cassinoides	witherod viburnum	5-6'		1 gal	\$15.00	Wonderful, varied fall color. New leaves are purplish. Creamy white flowers in early/mid summer. Very ornamental fruit in fall.
shrubs	Viburnum dentatum 'Papoose'	Papoose viburnum	4-6'	4-6'	1 gal	\$15.00	More compact most arrowwoods.
shrubs	Viburnum dilatatum	linden viburnum	8-10'	6-10'	1/2 gal	\$12.00	White flowers in 5" clusters in late spring. Bright red persistent fruit. Bronze, burgundy and red fall color.
shrubs	Viburnum hupehense	Hupeh viburnum	6-8'		1/2 gal	\$12.00	White flowers in spring give way to yellow-orange changing to red fruits in summer. Coarsely toothed foliage turns purplish-bronze in fall. Full to part sun in average, well-drained soil.
shrubs	Viburnum nudum 'Winterthur'	Winterthur viburnum	8'	5'	2 gal	\$25.00	Creamy-white flower clusters bloom June-July. Fruit follows changing from white to pink to red to dark blue. Lustrous, waxy green foliage turns wine-red in fall. Full to part sun. Tolerates a variety of conditions including boggy.
shrubs	Viburnum prunifolium	blackhaw viburnum	12-15'	12-15'	1 gal	\$15.00	Can be pruned to form a small tree; glossy dark green leaves turn a beautiful yellow-orange-red fall color; white flat-topped flowers lead to showy rose to blue-black fruit clusters.
shrubs	Viburnum schenshianum	Chinese viburnum	25'		2 gal	\$25.00	Thinly branched when young. Creamy-white flat-topped flower clusters May-June with red fruit ripening to black. Full to part sun.
shrubs	Viburnum sieboldii 'Wavecrest'	Wavecrest viburnum	15-20'		2 gal	\$25.00	Dark red spring growth, then green, with impressive dark red fall color. Has survived temperatures below -30. Full to part sun.

Type	Scientific Name	Common Name	Ht	W	Pot Size 1	Price 1	Description
shrubs	Viburnum x 'Emerald Triumph'	Emerald Triumph viburnum	5-6'	5-6'	1 gal	\$15.00	Creamy-white flower clusters in spring followed by red turning black fruits. Glossy, emerald green leaves turn shades of yellow and red in fall. Dense, compact habit. Full to part sun, site adaptable, drought-tolerant once established.
shrubs	Viburnum xburkwoodii 'Chenault'	Chenault viburnum	8'	6'	1 gal	\$15.00	White flowers in late April-May with spicy fragrance. Red fruit appears in late summer turning to black. Foliage is dark green becoming wine red in fall.
shrubs	Viburnum xpragensense 'Decker'	Decker Prague viburnum	10'	8-10'	1/2 gal	\$12.00	Dark green, waxy foliage is semi-evergreen. Pink buds open to pinkish-white flowers in spring followed by sparse red changing to black fruit. Full to part sun in moderate to dry soils.
shrubs	Viburnum xrhytidocarpum	rhytidocarpum viburnum	8-10'		1 gal	\$15.00	White flowers in spring give way to abundant fruit changing from green to pink to red to black. May sporadically rebloom. Dark green foliage turns wine-red in fall. Leaves persist through winter. Full to part sun in average, well-drained soil.
shrubs	Viburnum xrhytidophylloides 'Willowwood'	Willowwood viburnum	10-15'		1 gal	\$15.00	Blooms periodically through summer & fall. Very persistent foliage, retains green through winter.
shrubs	Viburnum xsarcoxie	Sarcoxie viburnum	7'	7'	1/2 gal	\$12.00	A fragrant cross between Koreanspice and Burkwood viburnum. Abundant white flowers in spring. Dark green, glossy foliage turns reddish-purple in fall. Full to part sun in average, well-drained soil.
shrubs	Weigela praecox	pink weigela	6'	4-6'	1/2 gal	\$12.00	Pink flowers with yellow throats bloom in spring. Prefers deep, well-drained soils and is not drought-tolerant. This rare shrub is hard to find in the trade.
shrubs	Weigela praecox 'April Snow'	April Snow weigela	6'	4-6'	1/2 gal	\$12.00	A rare shrub! White flowers bloom in late April. Prefers deep, well-drained soils and is not drought-tolerant. From Northern China
shrubs	Weigela 'Red Prince'	red prince weigela	6'	4-6'	1/2 gal	\$12.00	Pink flowers with yellow throats bloom in spring. Prefers deep, well-drained soils and is not drought-tolerant. This rare shrub is hard to find in the trade.
trees	Abies homolepis	Nikko fir	30-50'	20-30'	1 gal	\$15.00	Pyramidal habit. No serious insect or disease problems & appears to tolerate urban pollution better than other firs. Well-drained soil, full sun to part shade.
trees	Abies koreana	Korean fir			1 gal	\$15.00	Dark green needles with white undersides. Grows slowly into small tree. Wonderful fat, purplish, upright cones.
trees	Acer buergeranum	trident maple	25'		3 gal	\$35.00	Small oval tree is multi-stemmed with glossy dark green leaves. Bark exfoliates \ to expose orangish under-bark.
trees	Acer truncatum	Shantung maple	25'	20'	md band	\$8.00	Sweetgum-like foliage emerges reddish-purple in spring and matures to dark green. Fall color is usually clear yellow, but oranges, reds and purples may be present. Full to part sun, tolerates heat and drought.
trees	Asimina triloba	pawpaw	20-25'	15'	lg band	\$10.00	Burgundy bell-shaped flowers in spring give way to edible fruits similar to bananas. Large, tropical-looking foliage turns brilliant yellow in fall. Prefers moist, well-drained soils but tolerant of clay and drought. Full to part sun.
trees	Betula ermanii	Erman's birch	35'	25'	lg band	\$10.00	Medium-sized, densely branched tree; very erect with peeling, light bark.
trees	Carya cordiformis	bitternut hickory	50-75'		lg band	\$10.00	A relatively fast-growing hickory with bright yellow fall color and smooth bark. In spring, long flowering catkins dangle like tinsel. Edible nut. Best growth on deep, rich soils.
trees	Carya illinoensis	pecan	45'	30'	lg band	\$10.00	Outstanding ornamental tree for the Midwest. Lustrous dark green leaves, rounded habit. Very tough and drought-tolerant. Consistently produces pecans.
trees	Carya laciniosa	shellbark hickory	65'		1 gal	\$15.00	Unusually shaggy bark curves away from the trunk of this slow-growing, long-lived tree, native to southeaster Nebraska. Large edible nut in thick husk. Grows well in moist soils and adaptable to various sites. Yellow fall color.
trees	Castanea mollissima	Chinese chestnut	40-60'	40-60'	1 gal	\$15.00	Creamy white flowers in long, thin clusters, blooming in early summer; crisp, shiny green foliage; yellow to golden bronze fall color.
trees	Catalpa fargesii	Farges catalpa	20'	12'	lg band	\$10.00	Exciting dwarf catalpa with leathery, dark green leaves to 6" long. White flowers with purple dots in late July form persistent, 12-18" dark beanpods. Soil adaptable.
trees	Catalpa speciosa	northern catalpa	50'	30'	lg band	\$10.00	Orchid-like white flowers with purple and yellow spotting bloom in late spring among large, light green leaves. Grows in full to part sun and tolerates a wide range of soils.
trees	Celtis tenuifolia	dwarf hackberry	25'	25 ft	md band	\$8.00	Asymmetrical tree with stiff, twisted, intergrown branches. Trunk is often divided. Can take dry sites. Barkpale gray, thin, and smooth, becoming warty, rough, and scaly with age.

Type	Scientific Name	Common Name	Ht	W	Pot Size 1	Price 1	Description
trees	<i>Cercis canadensis</i>	eastern redbud	20'	25'	3 gal	\$35.00	Magenta buds in April. Heart-shaped leaves turn yellow in fall. Bark exfoliates to a cinnamon inner bark. Soil adaptable. Nebraska native.
trees	<i>Diospyros virginiana</i>	American persimmon	50'	25-35'	lg band	\$10.00	Dark green leaves to 6" long turn stunning yellow in fall; clinging orange fruits on female trees. Dark, charcoal-checked bark pattern. Thrive with attentive watering and on enriched soil.
trees	<i>Diospyros virginiana</i>	early fruiting persimmon	50'	25-35'	lg band	\$10.00	Flowers in June; edible fruits ripen in September-October. Well-drained acid or neutral soils. Sun or part shade; moist soil.
trees	<i>Euonymus carnosus</i>	carnose euonymus	8-12'	6'	med	\$8.00	Glossy green leaves turn deep red. Early winter fruit is a pink capsule with an orange seed coat, opening to red capsule. Tolerate saline conditions.
trees	<i>Evodia daniellii</i>	Korean evodia	25'	25'	md band	\$8.00	Lovely small tree with lustrous dark, leaves and small, white flowers in summer and brownish black seeds in fall. Prefers well-drained, fertile soil. 25' tall, 25' wide. Hardy to zone 5 (4).
trees	<i>Ginkgo biloba</i>	maidenhair tree	60'	40'	lg band	\$10.00	One of the most distinct and beautiful of deciduous trees. Fan-shaped leaves turn brilliant yellow in fall. Forms large picturesque branches and handsome bark. Durable tree for difficult landscape situations.
trees	<i>Gymnocladus dioicus</i>	Kentucky coffeetree	50'	50'	lg band	\$10.00	Large shade tree with broad spreading crown. Blue-green leaves turn golden-yellow in fall. Deeply furrowed bark and stout branches. Female trees have mahogany seed pods; males have 1" flowers & no pods.
trees	<i>Heptacodium miconioides</i>	seven-son flower	15'	8'	1/2 gal	\$12.00	A Chinese native with clusters of white buds opening to fragrant flowers in August. Rosy capsules follow extending the show. Bark peels on older stems. Full sun, average moisture.
trees	<i>Ilex decidua</i>	possumhaw	7-15'		3 gal	\$35.00	Flowers result in orange-red berries in September that persist through the winter until mid-March when new foliage comes on. Attracts wildlife.
trees	<i>Juglans cinerea</i>	butternut	35-40'	35'	1 gal	\$15.00	Tolerates dry soils and grows quite well in high pH soils. Mature trees have wide-spreading crown with stout, stiff branches.
trees	<i>Juglans microcarpa</i>	little walnut	30'	30'	lg band	\$10.00	Chartreuse catkin flowers in spring are followed by nuts only 1/2" in diameter. Mature bark is gray and ridged. Grows in full to part sun in average to dry soils.
trees	<i>Juglans nigra</i>	black walnut	75'		1 gal	\$15.00	Dark green leaves with yellow fall color. Edible, oily nuts. Prefers moist, well-drained soil, rich and deep soil full sun.
trees	<i>Juniperus virginiana</i> 'Taylor'	Taylor juniper	25'	3'	1 gal	\$20.00	Outstanding upright conical-columnar form with emerald green summer foliage. Excellent specimen for grouping and screening narrow areas. Hardy, disease-resistant selection performs well in a wide variety of soil and environmental conditions.
trees	<i>Liriodendron tulipifera</i>	tuliptree	60-90'	30-50'	lg band	\$10.00	Late spring flower resembles a large tulip, but high in the tree, 2 1/2 inches long, with yellow-green petals and an orange corolla. Pyramidal to oval shape.
trees	<i>Nyssa sylvatica</i>	blackgum	30-50'	20-30'	md band	\$8.00	Handsome smooth, waxy leaves turn lustrous red in fall; beautiful horizontal branching patterns; silvery bark on young stems and dark alligator bark. Prefers deep, well-drained soil but quite adaptable and resistant to drought and short term flooding.
trees	<i>Ostrya virginiana</i>	American hophornbeam	25-40'	20-30'	md band	\$8.00	Catkin flowers in spring become hoplike fruits in late summer. Dark green leaves turn buttery yellow in fall. Grows in full sun to part shade in well-drained soil.
trees	<i>Phellodendron amurense</i>	Amur corktree	30'	30'	md band	\$8.00	Branches become gracefully low and horizontal with age. The beautiful foliage is arranged in leaflets. Grows best in full sun and is drought tolerant once established.
trees	<i>Picea asperata</i>	Chinese spruce	80'		1/2 gal	\$12.00	Small, bluish-green needles are evergreen. Dark brown bark flakes to reveal lighter inner bark. Full sun, well-drained soil.
trees	<i>Picea crassifolia</i>	thickleaf spruce	40'		1/2 gal	\$12.00	Uncommon, columnar-pyramidal Asian spruce with light yellow new shoots. Zone 5
trees	<i>Picea purpurea</i>	purple-coned spruce	80'		1/2 gal	\$12.00	Pyramidal narrow-leaved evergreen; dark green needles w/ gray underside.
trees	<i>Pinus flexilis</i>	limber pine	50'		lg band	\$10.00	Dark, blue-green needles are 2-3" long. Cylindrical cones are 3-7" long. A tough native evergreen.
trees	<i>Populus deltoides</i> 'Sparks'	Sparks quaking aspen	35-40'	25-30'	lg band	\$10.00	Silvery catkins, dark green leaves turning bright yellow. Creamy bark. Resistant to canker, leaf spot and borers. Adaptable and tolerant of dry sites.

Copy of Greenhouse plant descriptions

Type	Scientific Name	Common Name	Ht	W	Pot Size 1	Price 1	Description
trees	Populus tremuloides 'NeArb'	Prairie Gold quaking aspen	35-40'	25-30'	lg band	\$10.00	Silvery catkins, dark green leaves turning bright yellow. Creamy bark. Resistant to canker, leaf spot and borers. Adaptable and tolerant of dry sites.
trees	Quercus alba	white oak	60'		lg	\$10.00	Gray-white bark and brightest red fall color for foliage. Leaves are 8" long and usually persist in winter, making it a great tree for a shelterbelt. Drought-tolerant.
trees	Quercus bicolor	oak, swamp white	50'	50'	md band	\$8.00	One of the most versatile oaks for landscape sites. Can withstand poorly drained or compacted sites as well as dry upland soil. Bicolor refers to two-colored leaf, green above and white velvety pubescence below. 50' spread.
trees	Quercus gambelii x macrocarpa	burgambel oak	40'	40'	lgtube	\$10.00	Compact, bushy crown. Best in dry, well-drained sites.
trees	Quercus macrocarpa	bur oak	50-60'	45-50'	lg band	\$10.00	Withstands drought, wind and extreme cold and heavy soils of the Midwest. Easy to grow if planted as a young tree. Large dark green leaves generally turn yellow to brown in fall and bark becomes deeply ridged and furrowed with age.
trees	Quercus mongolica	Mongolian oak	30-50'	30-40'	lg band	\$10.00	Leaves turn bronze and rosy-pink in fall and persist into winter. Yellow catkins in spring are followed by small acorns in fall that are perfect for wildlife. Tolerates drought, strong winds and various soil conditions.
trees	Quercus muehlenbergii	chinkapin oak	40-50'	45'	lg	\$10.00	A handsome native oak with lustrous, coarsely toothed foliage and ash-gray bark. A tough, drought tolerant tree that becomes inspiring with age. 40-50' high. Zone 4. Collected from mature trees at Peru State College.
trees	Quercus prinoides	dwarf chinkapin oak	15'		18s	\$8.00	One of the best native shrub oaks. Sulfur-yellow catkins in spring; chocolate acorns in late summer; golden-orange foliage in fall. Height rarely exceeds 15 feet.
trees	Quercus robur	English oak	65'		md band	\$8.00	The seed from this classic oak was collected from mature specimens on UNL's city campus. The seedlings have been relatively fast growing and free of mildew in the nursery.
trees	Quercus robur 'Riverbank Lodge'	English oak	65'		md band	\$8.00	The seed from this classic oak was collected from mature specimens on UNL's city campus. The seedlings have been relatively fast growing and free of mildew in the nursery.
trees	Quercus robur x macrocarpa	burenglish oak	40'	40'	md band	\$8.00	Hybrid oaks are often vigorous growers and this one is no exception! Leaves are dark green and glossy becoming yellowish-brown in fall. They are also leathery which helps to resist tatter and powdery mildew.
trees	Quercus undulata	wavyleaf oak	15'		md band	\$8.00	Dark bluish-green leaves are semi-persistent on this scrubby oak. Best planted in full sun and is heat and drought tolerant.
trees	Sapindus drummondii	western soapberry	20-30'	10-20'	md band	\$8.00	Cream flowers in spring give way to clusters of black seeds encased in translucent amber flesh and persist through winter. They are poisonous to humans, but relished by birds. Glossy green leaflets turn gold in fall.
trees	Sassafras albidum	sassafras	20-30'		md band	\$8.00	Dense, pyramidal tree spreads by root suckers, forming large colonies. Huge leaves to 7" in varying shapes. Berry-like drupes in September.
trees	Staphylea trifolia	American bladdernut	10-15'	10-20'	1/2 gal	\$12.00	Thicket-forming shrub/tree with white, bell-shaped flowers in spring, persistent seeds in bladder-like capsules. Soil-adaptable with few pests. Good for erosion control.
trees	Taxodium distichum	baldcypress	50-70'		lg band	\$10.00	Deciduous, needlelike leaves are soft "sage" green in summer, turn orange-tan before dropping in the fall. Relatively fast-growing. Mature trees are pyramidal.
trees	Tilia americana	American linden	50-70'	30-45'	5 gal	\$35.00	Fragrant pale yellow flowers in late spring, small nutlets with leafy wings and large dark green leaves. Good lawn or shade tree.
trees	Ulmus thomasii	rock elm	60'	40'	md band	\$8.00	This tough tree is similar in size and shape to American Elm. 60' high, 40' wide. Though susceptible to Dutch Elm Disease, this seed source either has escaped the disease or show resistance. Hardy to zone 4.
trees	Xanthoceras sorbifolium	yellowhorn	20'	20'	md band	\$8.00	Feathery green leaves turn yellow in fall. Showy, stary flowers in spring are white with yellow and red centers. Edible fruits follow.
trees	Zanthoxylum americanum	common pricklyash	20'		mddbband	\$8.00	Small, greenish flowers and bright red fruits. Sun or shade. Form thickets and prickly stem creates barrier.
